

Thousand Foot Cut Coordinates Into Lake Sabine from ICW

Mark 1 In	In From ICW	N29° 58.434'	W93° 50.267'
Mark 2 In		N29° 58.339'	W93° 50.214'
Mark 3 In		N29° 58.282'	W93° 50.175'
Mark 4 In		N29° 58.232'	W93° 50.135'
Mark 5 In		N29° 58.188'	W93° 50.109'
Mark 6 In		N29° 58.134'	W93° 50.070'
Mark 7 In		N29° 58.057'	W93° 50.018'
Mark 8 In		N29° 57.943'	W93° 49.939'
Mark 9 In		N29° 57.915'	W93° 49.909'
Mark 10 In		N29° 57.859'	W93° 49.853'
Mark 11 In		N29° 57.756'	W93° 49.762'
Mark 12 In		N29° 57.607'	W93° 49.762'
Cluster Piling	In Lake Sabine	N29° 57.610'	W93° 49.640'
Old Rig	Rig is Gone	N29° 57.023'	W°93 49.539'

These coordinates are in degrees decimal minutes. DDD° MM.MM'

Use these coordinates at your own risk.

When entering the lake from the ICW do not enter too close to Red Day Marker 70 or cut that corner close inbound or ourbound, you **will** find bottom. Follow the marks from 1 thru 12 and you should be in 7' -8' of water depending on tide. Keep the Cluster Piling well to port after reaching Mark 12 and head toward the Old Rig point. The rig is no longer there but this path will keep you in deeper water. Once you have cleared the Cluster Piling and the Old Rig you should have plenty of water under your keel.

Many a sailor has used these coordinates to enter and exit Lake Sabine successfully.
